JavaScript: Print the contents of the current window

Last update on February 26 2020 08:09:06 (UTC/GMT +8 hours)

JavaScript Basic: Exercise-2 with Solution

Write a JavaScript function to print the contents of the current window.

Sample Solution:

HTML Code:

```
1  <!DOCTYPE html>
2  <html>
3  <head>
4  <meta charset=utf-8 />
5  <title>Print the current page.</title>
6  </head>
7  <body>
8  <p></p>
9  <p>Click the button to print the current page.</p>
10 <button onclick="print_current_page()">Print this page</button>
11 </body>
12 </html>
```

JavaScript Code:

```
1  function print_current_page()
2  {
3  window.print();
4  }
```

Sample Output:
